

Auto pH[®]

pH regulator

Pool
TECHNOLOGIE

Benefits

European
patent

- Smart pH: predictive regulation based on history for a perfectly stable pH
- Intuitive navigation on backlit LCD display
- Soft touch keyboard with quick access keys
- Integrated silent dosing pump
- Very high quality pH probe, factory tested and calibrated
- Bluetooth remote control with e-Pool[®] app
- Compatible with new European regulation (N°2019/1148): pH correcting agent adjustable concentration
- New clear accessories holder

Features

- Predictive and proportional pH regulation
- Automatic injection of correcting agent, acid (pH-) or base (pH+)
- Safeties: alarms for set point overrun and overfeeding
- Log of events
- Multilingual communication interface
- Multilingual alarm message: written message display of malfunction cause
- Easy installation and assembly

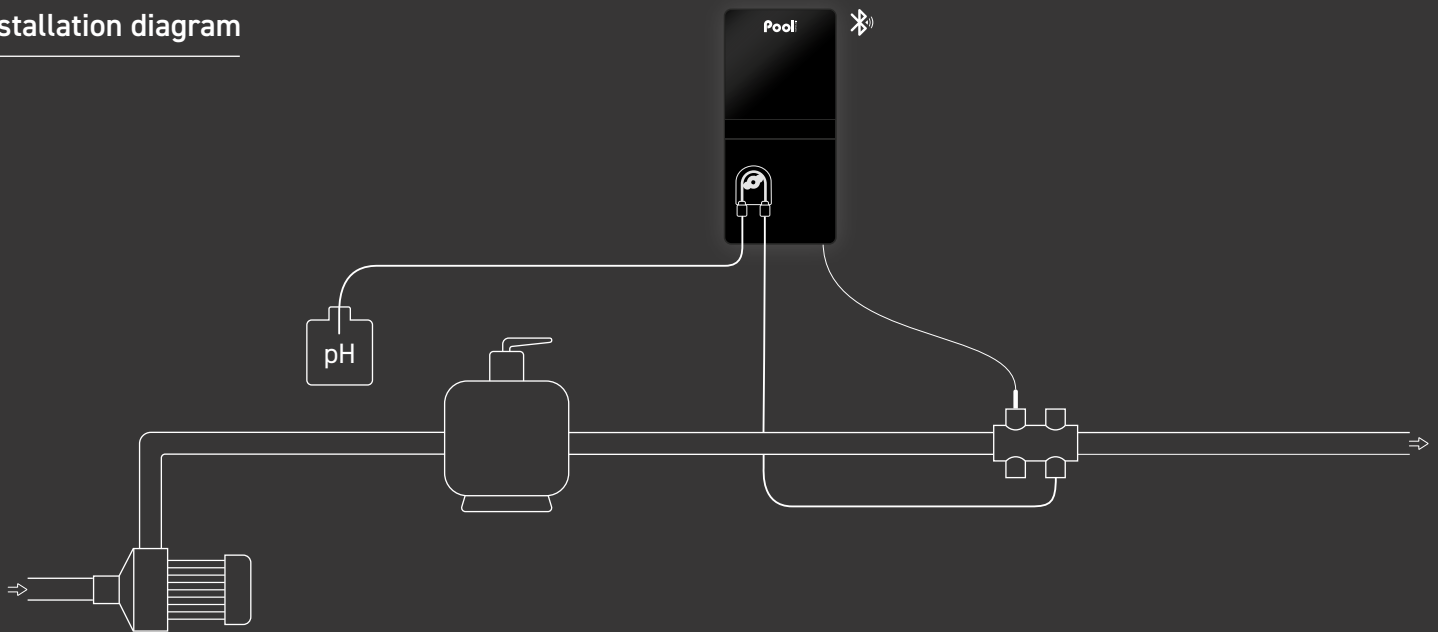

Model	Pool volume m ³	Pump flow l/h	Reference
