

Dosipool® Pro

Pool
TECHNOLOGIE

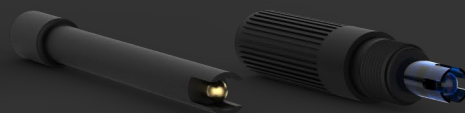

Automatic ORP dosage + pH regulator
+ ORP controller

Benefits

European
patent

- Smart pH: predictive regulation based on history for a perfectly stable pH
- Intuitive navigation on backlit LCD display
- In line y or dashboard display
- Soft touch keyboard with quick access keys
- Permanent display of ORP and pH values
- Very high quality pH and ORP probes, factory tested and calibrated
- Integrated silent dosing pump
- Bluetooth remote control with e-Pool® app
- Compatible with new European regulation (N°2019/1148): pH correcting agent adjustable concentration
- New clear accessories holder

Features

- Automatic chlorine dosage by ORP probe
- Limits over/under chlorination issues and protects pool equipments (cover, liners, etc...)
- Smart pH: predictive and proportional pH regulation in acid (pH-) or basic (pH+) mode
- Water temperature display
- Multilingual alarm message: written message display of malfunction cause
- Safeties : high and low ORP values, unreached set point, pH set point overrun and overfeeding
- Adjustable ORP and pH set points
- Easy installation and assembly

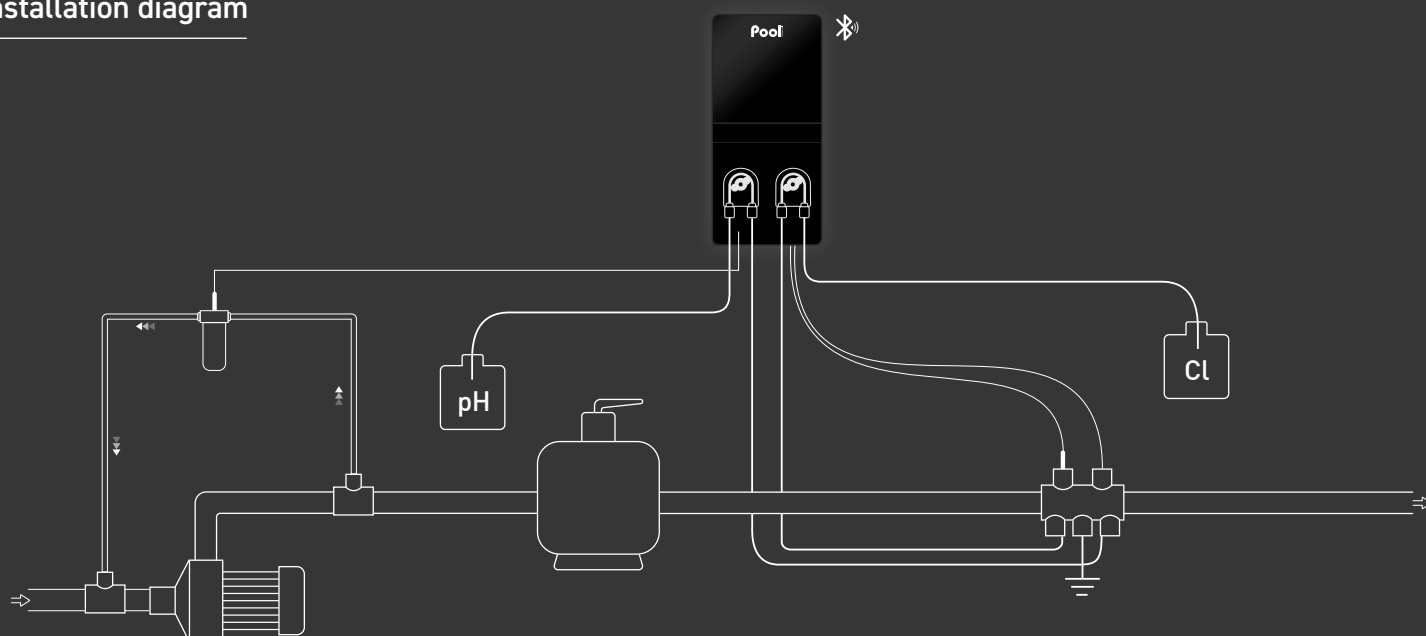

Model	Pool volume m ³	Pump flows l/h	Reference
-------	-------------------------------	-------------------	-----------

Dosipool PRO NPS	120	1,8	D00P20NPSP-G2
------------------	-----	-----	---------------

Technical specifications	
--------------------------	--

Display	LCD 2 lines
Disinfectant dosage	liquid chlorine
Disinfectant regulation	by ORP control
ORP set point adjustment (mV)	from 200 to 900
Calibration ORP probe	1 point 470 mV
ORP probe	ORP Gold
Corrective solution	pH- or pH+
Type of regulation	predictive
pH set point adjustment	from 6,8 to 7,6
Calibration pH probe	2 points pH 7 & pH 10
pH probe	Black
Control panel size (mm)	W140 x H300 x D97

Installation diagram

Content

- Control box
- pH probe Black
- Calibration solutions pH 7 & pH 10
- ORP probe Gold
- ORP calibration solution 470 mV
- ORP probe Gold & ORP measure chamber kit
- Probe holder, injection connector
- Low water/temperature sensor
- Accessories holder with plugs
- Pool Terre grounding electrode
- Power cable (2m)
- Reducer 63/50 mm x2
- Wall support (with screws)
- User manual

Options

- ORP mounting panel
- Empty can sensor
- e-Pool® Connect connected pool kit
see page 52-53
