

Just Regul®

Pool
TECHNOLOGIE

Production ORP controller + pH regulator
for saltwater chlorinator

Benefits

- Intuitive navigation on backlit LCD display
- In line or dashboard display
- Soft touch keyboard with quick access keys
- Permanent display of ORP and pH values
- High quality ORP and pH probes, factory tested and calibrated
- Integrated silent dosing pump
- Suitable for all type of saltwater chlorinators
- Bluetooth remote control with e-Pool® app
- Compatible with new European regulation (N°2019/1148):
pH correcting agent adjustable concentration
- New clear accessories holder

Features

- **Controls and optimizes chlorine production** thanks to ORP probe specifically designed for saltwater
- **Smart and proportional pH regulation according to the pool volume** in acid (pH-) or base (pH+) mode
- **Limits over/under chlorination issues and protects pool equipments (cover, liners, etc...)**
- **Water temperature and salt level display**
- **Multilingual communication interface**
- **Multilingual alarm message: written message display** of malfunction cause
- **Safeties:** high and low ORP values, unreached set point, pH set point overrun and overfeeding
- **Adjustable ORP and pH set points**
- **Easy installation and assembly**

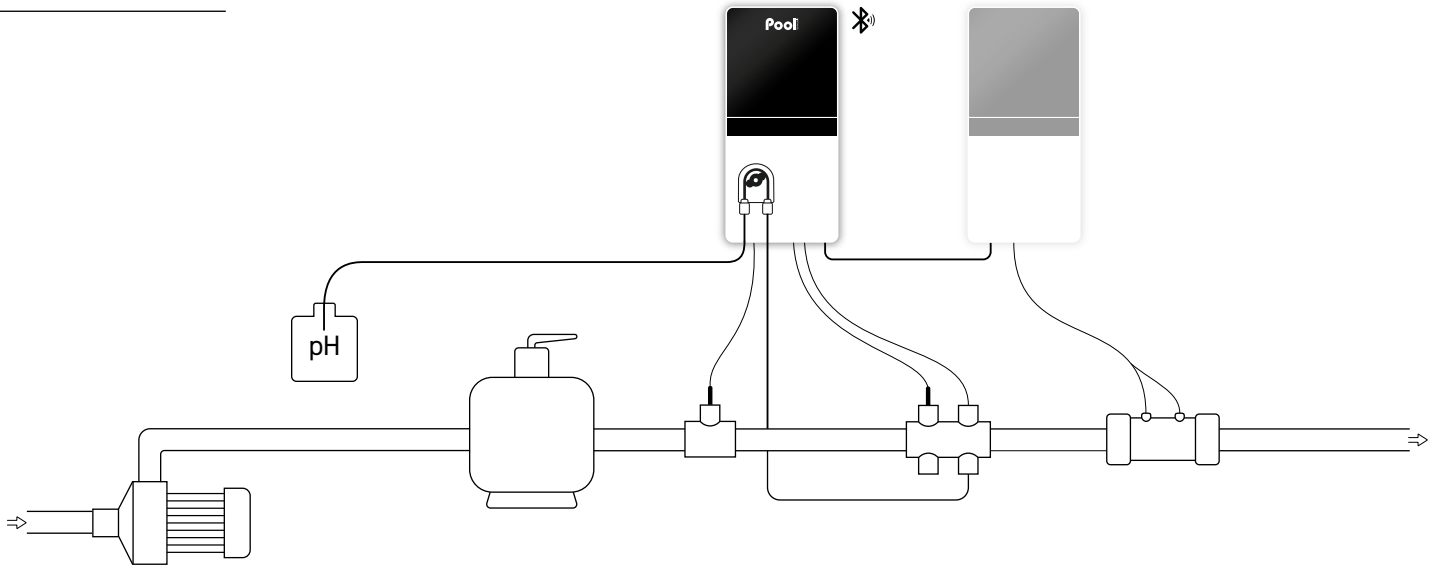

Model	Pool volume m ³	Pump flow l/h	Reference

Display	LCD 2 lines
Corrective solution	pH- or pH+
Type of regulation	smart
pH set point adjustment	from 6,8 to 7,6
Calibration pH probe	2 points pH 7 & pH 10
pH probe	Blue
ORP set point adjustment (mV)	from 200 to 900
Calibration ORP probe	1 point 470 mV
ORP probe	ORP Gold
Control panel size (mm)	W140 x H300 x D97

Installation diagram

Content

- Control box
- ORP probe Gold
- ORP calibration solution 470 mV
- pH probe Blue
- Calibration solutions pH 7 & pH 10
- Probe holder, injection connector
- Accessories holder with plugs
- Salt/temperature sensor
- Paddle clamp (diam 50 mm)
- Power cable (2m)
- Reducer 63/50mm x2
- Wall support (with screws)
- User manual

Options

- Measure chamber for ORP probe
- Empty can sensor
