

### BENEFITS

- Digital display of pH level
- Integrated silent dosing pump
- Quality pH probe, factory tested and calibrated
- Compatible with new european regulation  
(N°2019/1148) pH correcting agent adjustable concentration

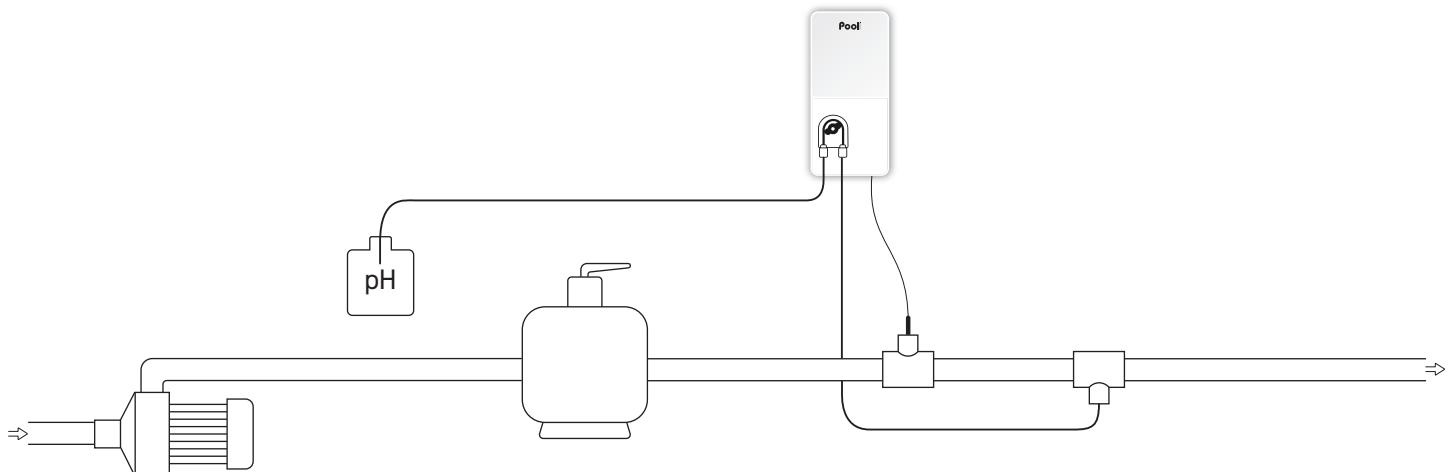

### FEATURES

- Proportional pH regulation according to pool volume
- Regulation of all types of water, acid (pH-) or base (pH+)
- Safety: alarms for setpoint overrun and overfeeding
- Warning indicator light
- Easy installation and assembly

Model	Pool volume (m <sup>3</sup> )	Pump flow (l/h)	Reference	Technical specifications	
Mini pH	160	1,8	REGU20NPSB-G1	Display	digital display
				Corrective solution	pH- or pH+
				Type of pH regulation	proportional
				Setpoint adjustment	6,8 to 7,6
				pH probe calibration	2 points pH 7 & pH 10
				pH probe	Amber
				Control panel size (mm)	W 118 x H 231 x D 78

## INSTALLATION DIAGRAM

## CONTENT

- Control box
- pH Amber probe
- Calibration solutions pH 7 & pH 10
- Saddle clamp x2 (Ø 50 mm)
- Probe holder, injection connector
- Power cable (2 m)
- Wall support (with screws)

## WARRANTIES
