

MinipH[®]

pH regulator

Pool
TECHNOLOGIE

BENEFITS

- Digital display of pH level
- Integrated silent dosing pump
- Quality pH probe, factory tested and calibrated
- **Compatible with new european regulation**
(N°2019/1148) pH correcting agent adjustable concentration

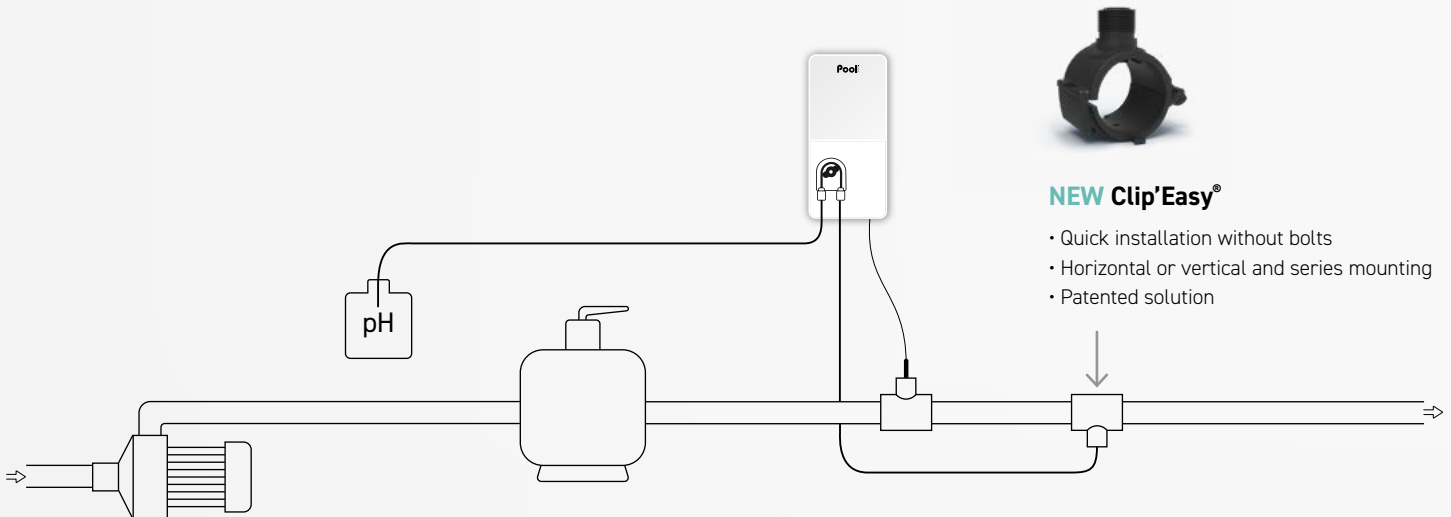

FEATURES

- Proportional pH regulation according to pool volume
- Regulation of all types of water, acid (pH-) or base (pH+)
- Safety: alarms for setpoint overrun and overfeeding
- Warning indicator light
- Easy installation and assembly

Model	Pool volume (m ³)	Pump flow (l/h)	Reference
Mini pH	160	1,8	REGU20NPSB-G1

Technical specifications	
Display	digital display
Corrective solution	pH- or pH+
Type of pH regulation	proportional
Setpoint adjustment	6,8 to 7,6
pH probe calibration	2 points pH 7 & pH 10
pH probe	Amber
Control panel size (mm)	W 118 x H 231 x D 78

INSTALLATION DIAGRAM

NEW Clip'Easy®

- Quick installation without bolts
- Horizontal or vertical and series mounting
- Patented solution

CONTENT

- Control box
- pH Amber probe
- Calibration solutions pH 7 & pH 10
- Clip Easy saddle clamp x2 (Ø 50 mm)
- Probe holder, injection connector
- Power cable (2 m)
- Wall support (with screws)

WARRANTIES

2 years Box

1 year Probe pH Amber
